

Donate to recovery efforts in Haiti

Since the devastating earthquake in Haiti on January 12, United Way has rallied to support those in need. United Way Worldwide's members in the Caribbean region have mobilized their staff, volunteer leaders, partners and resources in response to this disaster, and will help to determine the most pressing long-term recovery needs, such as access to health care, rebuilding schools and housing, and meeting critical basic needs for shelter, food and clothing.

If you would like to write a check, please make it out to United Way and mail it to:
